

A Minimal Book Example

Yihui Xie

2017-12-05

Contents

1	Prerequisites	5
2	Introduction	7
3	Literature	9
4	Methods	11
5	Applications	13
5.1	Example one	13
5.2	Example two	13
6	Final Words	15

Chapter 1

Prerequisites

This is a *sample* book written in **Markdown**. You can use anything that Pandoc's Markdown supports, e.g., a math equation $a^2 + b^2 = c^2$.

The **bookdown** package can be installed from CRAN or Github:

```
install.packages("bookdown")  
# or the development version  
# devtools::install_github("rstudio/bookdown")
```

Remember each Rmd file contains one and only one chapter, and a chapter is defined by the first-level heading #.

To compile this example to PDF, you need to install XeLaTeX.

Chapter 2

Introduction

Bioinformatics can be defined as the use of computational tools to answer questions in Biology. Several topics are covered:

- Sequence analysis
- Omics analysis
- Structural analysis

Chapter 3

Literature

Here is a review of existing methods.

Chapter 4

Methods

We describe our methods in this chapter.

Chapter 5

Applications

Some *significant* applications are demonstrated in this chapter.

5.1 Example one

5.2 Example two

Chapter 6

Final Words

We have finished a nice book.
